ACCESSORIES

# Solar power kits

Plan field charging when a mains supply may be unavailable.

## What to compare

- Check the device charging input, connector and compatible adapter.
- Estimate how often devices must be charged and whether a battery buffer is needed.
- Review mounting, expected sunlight and weather exposure.

## What to include in your enquiry

Send device models, quantities, duty cycle and typical days away from mains power. Ask for a compatible setup.

Category image shows an example. Confirm exact fit and specifications before ordering.
